Ida Samuelsen

SENIOR HR ADVISOR

DNV

SØKNAD PÅ STILLINGEN SOM SIKKERHETSRÅDGIVER

Dear Ida Samuelsen,

I am writing to express my interest in applying for the Cyber Trainee position at DNV. As someone with a deep interest for cyber security, I believe my educational background and practical experience make me a strong candidate for the trainee programme. I would like to take this opportunity to briefly outline how my qualifications align with your organization's goals and explain why I believe I would be a valuable addition to your team.

I recently graduated with a Bachelor's degree in Cyber Security and completed a two-year certified IT Security program. My academic journey has equipped me with in-depth knowledge of network security, penetration testing, and malware analysis. Throughout my studies, I have successfully worked on several projects both individually and in teams, which have refined my ability to think critically, work methodically, and develop innovative solutions. Additionally, I actively participate in online hacking platforms to stay up to date with the latest cyber security trends, continuously enhancing my practical skills.

Over the past year, I have worked as a network consultant in the public sector, where I contributed to securing and hardening critical network infrastructure to mitigate cyber risks. This hands-on experience in securing operational technology environments will allow me to add value to DNV's efforts in protecting critical assets and improving security frameworks for your customers.

I am a proactive and dedicated individual who constantly seeks opportunities to grow both personally and professionally. Cyber security is a field I am deeply passionate about because it allows me to protect and preserve digital assets — an essential role in today's increasingly interconnected world. My curiosity and attention to detail drive me to uncover vulnerabilities and identify potential threats, which are critical skills for investigating cyber incidents and implementing effective countermeasures.

The DNV Cyber Trainee Programme excites me because it offers the opportunity to work on real-world challenges, collaborate with a team of experts, and make impactful decisions that safeguard common values. The chance to be part of a globally respected company with a strong commitment to innovation, personal development, and teamwork is a significant aspect that I highly appreciate.

Thank you for considering my application. I am confident that my skills, combined with the opportunities DNV offers, will contribute positively to both my professional growth and the organization's success. I look forward to discussing my application further and learning more about the trainee programme.

Med vennlig hilsen,

TAMÁS Szmandra
